

To whom it May Concern,

It would certainly result in a hardship if I could no longer receive my favorite K-LOVE station on my FM radio. It is a station that I listen to throughout the day and one that means a great deal in the quality of my life as well as that of my family, meaning my children and grandchildren. Many businesses in our community tune into this station and you can hear it in many places throughout the city. No one should be able to take this valuable resource away from its many listeners. K\_LOVE is a source of good and much encouragement.
